Profile

Motivated IT student seeking internship opportunities to gain hands-on experience in software development, web technologies, and user interface design. Passionate about learning and applying programming concepts to real-world projects.

Education

High School

St Albans Secondary College	University CIC high Education	Victoria University
07/2016 - 11/2018	03/2019 – 05/2022	04/2025 – Ongoing
VCE	Bachelor of commerce	Bachelor of IT

Experience

Bar Attendance - Supervisor

Gotcha Fresh tea - SunShine

05/2021 – 01/2025

As a supervisor at a milk tea shop, I oversaw daily operations, managed staff, and ensured efficient workflow. My responsibilities included supervising beverage preparation, handling customer inquiries, training new team members, maintaining inventory, and managing stock control to ensure smooth operations and consistent product quality.

Storeperson – Customer Service

Healthshare Victoria - Derrimut

07/2023 – 04/2025

In my role at the warehouse, I performed multiple responsibilities, including receiving and inspecting stock shipments from suppliers, ensuring the accuracy and quality of incoming goods. I organized, coordinated product distribution to hospitals, and resolved any issues with suppliers to maintain smooth operations. Additionally, I handled work allocation for team members, assigning tasks to ensure efficient order fulfillment, while also contributing to overall productivity and safety standards.

Projects

Game Development with Pygame

Implemented game loop setup, image handling, user input, collision detection, object movement, and scoring. Utilized event handling, colliderect() for collision detection, Rect for object movement, timed events, and UI rendering.

Python GUI File Manager

Developed a GUI application for file system manipulation using Python. Features include treeview hierarchy, file grouping, image/text preview on hover, file operations (delete, move, open), custom popups, real-time search, and drag-and-drop support.

JavaScript Time Tracker

Built a time tracking tool using DOM manipulation and setInterval. Converted milliseconds to hh:mm:ss format, updated display in real time, and implemented pause/reset functionality. Styled with CSS flex layout and hover effects.

Responsive Web Design

Created a responsive website using HTML structure, CSS Flexbox, and animated transitions with keyframes. Integrated JavaScript for interactive section animations and navigation, including a 3D Spline background.
